Part III DETAILED ACTION

1. Claims 1-20 have been canceled, newly added claims 21-31 are pending.
2. Applicant's election without traverse of Group I, which reads upon newly added claims 21-31 in Paper No. 9 is acknowledged.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. § 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 21 and 28-31 are rejected under 35 U.S.C. § 102(b) as being anticipated by U.S. Patent 5,017,372. (AC in IDS submitted 1-25-02).

The '372 patent teaches hyperimmunizing (i.e. multiple dosing) farm animals with an antigen, and thereafter administering the antigen to a mammary gland of the farm animal and then harvesting the mammary secretion product from the farm animal for use in food as a medicament, wherein said mammary gland secretion is an antigen specific antibody (columns 4-7, in particular).

The prior art teachings anticipate the claimed invention.

4. Claims 22-27 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 22-27 depend upon canceled claims, so the scope of said claims can not be ascertained and can not be searched. Correction is required.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Patrick Nolan whose telephone number is (703) 305-1987.
